ECOsurfaces is a distinctive vulcanized composition rubber surface. Available in traditional rolls and tiles, this resilient surface has beauty and brains! Featuring the durability and ease of maintenance associated with a hard surface, ECOsurfaces offers similar acoustic attributes to a soft surface.

ECOsurfaces features ECOguard, a factory-applied urethane coating, and should be cleaned with a pH-neutral cleaner, such as Ecore E-Cleaner.

**Markets**
- Corporate
- Education
- Institutional
- Retail

**Applications**
- Common Areas
- Corridors
- Classrooms
- Libraries
- Offices

**Benefits**
- Durable—features ECOguard coating
- Slip Resistant
- Offers better acoustic properties than traditional resilient surfaces
- Ergonomic – comfortable underfoot
- Sustainable
