The vinyl surfaces in the Rx Collection were developed to meet the performance and aesthetic requirements of the healthcare space. Featuring an Ecore vulcanized composition rubber backing fusion-bonded to a modern heterogeneous vinyl sheet, these products provide a unique solution.

The vinyl surfaces in the Rx collection offer enhanced ergonomics, safety, and acoustics that provide comfort and relief for staff, reduced noise from surface generated sound, and may reduce the risk of injury associated with falls.

Markets
- Healthcare
- Senior Care

Applications
- Ambulatory Surgery
- Behavioral Health
- Clinics
