Ecore Commercial, a sustainable flooring brand that has made a distinct design statement for more than 25 years, is now offering a complete Wellness Program!

Whether you’re working out at a hotel during a business trip or taking a yoga class in your corporate gym, exercising should be fun. No one should have to worry about falling or injury from repetitive impact on a floor that’s unforgiving. The surfaces in the Ecore Commercial Wellness Program absorb shock, prevent falls, and are easy to clean, making the fitness space a safer, more comfortable, and enjoyable place.

How does Ecore achieve this? All of the products in the Ecore Commercial Wellness Program feature vulcanized composition rubber. Most of the surfaces also feature Ecore’s patented itstru technology. The result: surfaces that are more safe, more ergonomic and more acoustic than traditional resilient surfaces.

The Ecore Commercial Wellness Program provides a unique surface for every aspect of your fitness space.

Can a floor make people’s lives better?

Yes.

A floor can be more than just a passive surface. By harnessing the attributes of composition rubber, we’ve designed innovative ways to give you

MORE

ERGONOMICS
Making people more productive and comfortable in their environments

SAFETY
Managing impact surface hazards better than ever before

ACOUSTICS
Reducing noise in and between functional spaces

Bringing these attributes together in expert proportions, we’ve created tailored surfaces that make lives better, while also protecting the planet.

This is Ecore’s definition of SUSTAINABILITY

Can a floor make people's lives better in their environment, while simultaneously benefiting the natural environment?

Yes.

ecore Built by Yes.
Rx Collection
Forest Rx • Cosmos Rx • Infinity Rx • Strait Rx

Rx is a collection of premium flooring products developed and manufactured to meet the extreme challenges experienced in commercial environments. Available in 6-foot-wide rolls, these engineered vinyl surfaces feature a 5mm composition rubber backing. Leveraging Ecore’s patented itstru technology, Rx products provide force reduction and energy restitution in every step.

The Rx Collection pairs beautifully with the surfaces in the Ecore Commercial Wellness Program to achieve creative designer effects.
ECOnights

ECOnights is the perfect surface for basic strength and cardio applications. Its superior slip resistance and nominal 3/8” thickness make it a durable solution for high impact spaces. Rolls and tiles are available in 10 different color options, delivering unmatched durability and design options to enhance any high-energy environment.

Specifications:
- Product Type: Rolls and Interlocking Tiles
- Dimensions: Rolls – 8mm x 48” (1.2m) x 25 linear feet (7.62m)   Interlocking Tiles – 8mm x 23” (58cm) x 23” (58cm)

Wellness Program patterns are provided for design inspiration. Actual samples and final product may vary from color swatches shown.
Standard Colors
ECOfit • ECOfit Plus
ECOmax • ECOsmash

ECOfit

Whether a traditional health and fitness application or an active work environment, ECOfit is an 8.2mm engineered surface that provides enhanced performance while mitigating fatigue and the risk of injury.

View Standard Colors for color options.
Visit EcoreCommercial.com for minimum order quantities, format, and technical information.

Specifications:
• Product Type: Rolls
• Dimensions: 8.2mm (3.2mm+5mm) x 48" (1.2m) x 25 linear feet (15.24m)

ECOfit Plus

ECOfit Plus absorbs impact force while returning energy and encourages people to stand on the balls of their feet. This prevents compression in the back and legs. This 15.2mm product is available in glue down rolls or adhesive-free interlocking tiles.

View Standard Colors for color options.
Visit EcoreCommercial.com for minimum order quantities, format, and technical information.

Specifications:
• Product Type: Rolls and Interlocking Tiles
• Dimensions: Rolls – 15.2mm (3.2mm + 12mm) x 48" (1.2m) x 25 linear feet (7.62m)
  Interlocking Tiles – 15.2mm x 23" (58cm) x 23" (58cm)

ECOmax

ECOmax is a square, 1-inch beveled tile featuring a patented footed system, designed specifically for use in weight rooms. ECOmax provides enhanced acoustical performance by absorbing the energy of weight impacts.

Specifications:
• Product Type: Tiles
• Dimensions: Tiles – 1" (25.4mm) x 24" (610mm) x 24" (610mm)

View Standard Colors for color options.
Visit EcoreCommercial.com for minimum order quantities, format, and technical information.
FITturf

FITturf features a dense, textured nylon wear layer fusion bonded to a 5mm composition rubber backing. While too abrasive to fall or dive on, this consistent and tight surface is ideal for all footwork drills as well as sled work. FITturf coordinates well with ECOfit and can withstand light to moderate free weights.

Specifications:
- Product Type: Rolls
- Dimensions: 8mm (3.2mm + 5mm) x 72” (1.2m) x 35 linear feet (10.67m)

FITturf Plus

FITturf Plus is available in rolls or interlocking tiles and features a nylon wear layer fusion bonded to a 12mm composition rubber backing. This surface simulates natural turf and offers a portable/temporary turf system.

Specifications:
- Product Type: Rolls and Interlocking Tiles
- Dimensions: Rolls – 15mm (3.2mm +12mm) x 72” (1.2m) x 25 linear feet (7.62m)
  Interlocking Tiles – 15mm x 23” (58cm) x 46” (116cm)

ECOsmash

This 2-foot by 2-foot by 2.5-inch molded composition rubber tile is designed for areas requiring extreme durability, ultimate noise reduction, and shock absorption. ECOsmash also addresses the challenges of structure-borne noise from weight drops in mixed-use buildings.

Specifications:
- Product Type: Tiles
- Dimensions: 2.5” (63.5mm) x 24” (610mm) x 24” (610mm)

View Standard Colors for color options.
Visit EcoreCommercial.com for minimum order quantities, format, and technical information.
Sustaining Ability Through Performance Surfaces
The Wellness Program

**ECOsmash** is designed for areas where extreme durability and ultimate noise reduction are required. ECOsmash mitigates shock and sound by absorbing impact while protecting the floor below.

**ECOfit** was designed to provide ample impact insulation as well as comfort underfoot with a focus on dynamic energy return while mitigating fatigue and the risk of injury.

Using Ecore’s patented itstru technology, **ECOFit Plus** was designed with ergonomics in mind by creating the perfect balance of force reduction & energy restitution while providing impact insulation.

**Rx** is a collection designed to meet the unique maintenance and hygienic demands of group fitness, while offering the desirable ergonomic, acoustic, and safety demands required by all fitness applications.
Since 1871, Ecore has been transforming reclaimed materials into performance surfaces that make people’s lives better. What started with simple cork closures has evolved into a diverse portfolio of products solving complex problems in applications ranging from playgrounds, weight rooms and turf fields to hospitals, hotels and retail environments. We are driven everyday by a simple question, “Can a floor do more?” At Ecore, we believe the answer is “YES.” We are building our company and the products we offer based on the simple notion that floors should elevate beyond current expectations. Our energy is focused on the interaction between people and the surface. We engineer performance well beyond industry standards related to acoustics, ergonomics and safety. Harvesting the unique power from a myriad of waste streams, Ecore creates products that align—substantial force reduction with a balanced amount of energy restitution to create dynamic surfaces that are tailored to the individual and the application.

People will fall… we will be there to catch them! Professionals will overwork their bodies… we will soften the blow! Footfall sounds will keep someone awake… we will quiet the noise!
